Continuation of 2. NOTE: Although the proposed amendments may reinsert language that was "inadvertently deleted," as Applicants assert, the amendments require further consideration and do not immediately place the application in condition for allowance. For example, as stated by the Examiner on the record, the proposed language is not believed to be supported by the parent '760 patent, and thus, the claims would again be subject to a rejection over the Takeuchi '717 patent.

Furthermore, Applicant's amendment is non-compliant under 37 CFR §1.121 because there is no clean copy of the claims.
